C Dm G

In to a can our waste we throw lit - tle con - cerned with where it goes. Then
The met - als from the earth we use, re - plac - ing what through waste we lose. We
The at - om's core has been un-sealed and to our use its po - wer yields, while

3 C Dm G

send it off far from our sight so we don't have to see its blight. We
leave the slag which has no worth in piles scat - tered up - on our earth. With
its waste does ac - cum - u - late, as we try to de - cide its fate, with

5 F G F C

seal it off in piles so neat our des - cend - ants so to greet.
tox - ic el - e - ments they leach un - til our lakes and streams they reach.
rays dead - ly for thou - sands years we'll pass it on to our heirs dear.

7 Dm C Dm G Dm C Dm G C Dm

To our des-cend - ants what bring we to re - mem-ber us, our leg - a - cy? Tox - ic pi-les.

12 C Dm

Tox - ic pi - les.
