

Hydrogen Is Number One

XX

Ward Ricker

Ward Ricker

$\text{♩} = 80$

C F G

Hy - dro - gen is num - ber one!

$\text{♩} = 90$

4 C G

He - li - um is num - ber two, and
So - di - um e - lev - en is. Mag -
Potass - i - um and cal - ci - um,
Rubid - i - um and stron - ti - um.
Row six starts with ce - si - um. Then
Haf - ni - um and tan - ta - lum.
Se - venth row it's fran - ci - um,

5 F G

just like that one row we do.
ne - si - um at twelve does fizz. A -
scan - di - um, ti - tan - i - um.
Ytt - ri - um, zir - con - i - um. Ni -
fif - ty - six is ba - ri - um. The
Tung - sten then and rhe - ni - um.
fol - lowed then by ra - di - um. Ac -

6 C G

Lith - i - um is num - ber three, be -
lum - in - um, so bright and fine, at -
That was num - ber ty - two. Va -
o - bi - um, mo - lyb - de - num, tech -
lan - tha - nides come af - ter these.
Os - mi - um's se - ven ty - six. Ir -
tin - i - um is eigh - ty - nine. Then

7 F G

ry - li - um is four, you see.
 thir - teen does its bril - liance shine.
 nad - i - um up - next will do. Chro -
 ne - ti - um, ru - then i - um.
 A long list. No time to sneeze!
 rid - i - um comes then for kicks.
 thor - i - um, next, is so fine.

8 C G

Bo - ron it is num - ber five.
 At four - teen it's sil - i - con.
 mi - um, man - ga - nese are next. Then
 Rho - di - um, pal - lad - i - um,
 Lan - tha - num and ce - ri - um.
 Plat - i - num's se - ven - ty eight.
 Pro - tac - tin i - um is next. The

9 F G

Car - bon's six, oh, man a - live!
 Fif - teen phos - pho - rus sits on.
 i - ron, it is twen - ty six.
 sil - ver, you've heard of that one.
 Then is prae - so - dy - mi - um.
 Gold's se - ven - ty nine, no rate.
 next one, oh now, can you guess? U -

10 F G

Ni - tro - gen is se - venth place.
 Sul - fur is num - ber six teen. At
 Co - balt, nic - kel, cop - per, zinc, we're
 Cad - mi - um is four - ty eight.
 Then comes ne - o - dy - mi - um,
 Mer - cu - ry so li - qui - dy.
 ran - i - um at nine - ty two, the

11 F G

Ox - y - gen is num - ber eight.
 se - ven - teen it is chlo - rine.
 up - to - thir - ty now, I think.
 In - di - um and tin are great!
 fol - lowed by pro - meth i - um. Sa -
 Thal - li - um, then lead, 'twould be. Bis -
 last one in our song we'll do, be -

12 C G

Fluo - rine it is num - ber nine.
 And to fi - nish out this row,
 Gal - lium, ger - man - i - um.
 An - ti - mo - ny's, fif - ty - one,
 ma - ri - um, eu - ro - pi - um. The
 muth at eigh - ty three what is seen. Po -
 cause the rest, for what they're worth, do -

13 F G

Ne - on at ten sits so fine.
 ar - gon at eight een does show.
 Ar - sen - ic, se - len i - um.
 and, you see, this is so fun! Tel -
 next is gad - o - li - ni - um.
 lo - ni - um, then as - ta - tine. At
 not ex - ist u - pon our earth. Cre -

14 C G

That com - pletes the se - cond row. Be
 On - ly eight, that was ea - sy. The
 Bro - mine and kryp - ton, you know, at
 lur - i - um and I o - dine. Xe -
 Now we'll sneak in some more lines, and
 eigh - ty six it is ra - don, they
 at - ed ar - ti - fi - cial - ly, -

15 F G C G F G

rea - dy, though, there's more to go. But as we con - tin - ue through,
 next row, though, will lon - ger be.
 thir - ty six kills off this row.
 non's the last one on this line.
 just to do the lan - tha - nides
 fin - 'ly now row six is done!
 va - nish al - most in - stant - ly. if you

18 C G F G C F G

don't for-get this fact so true: Hy - dro-gen is num-ber one!

♩ = 90

24 C G F G

Insert after verse 5 before refrain:
 Ter - bi - um, dis - pro - si - um, then hol - mi - um and er - bi - um.

26 C G F G

Thu - li - um, yt - ter - bi - um, se - ven - ty - one lu - te - ti - um.

28 C G F G

Those com - plete the lan - tha - nides, but lots more in row six re - side!
