Ward Ricker

♩ = 90 C F G C

A hun-dred years a - go or so our air be-gan to change.
 Three hun-dred fif - ty, threeigh-ty, four hun-dred p p m,
 The ice caps they are mel-ting, and the seas be-gin to rise.
 The earth has been much warm-er and much cold - er than to - day,

Warm-er! Warm-er~

5 F G C

Lots of fac-tor-ies we built, and cars filled up our roads.
 high - er, high-er, up and up, on-ward does it go,
 The storms with great-er fu - ry rage, and ma - ny spe-cies die.
 but when it changes spec-ies on it must a - dapt or die.

Warm - er! Warm - er~

8 F

They spewed lots of chem-i cals in -
 Trap-ping heat and caus-ing o - ur
 Deep - er and dee-per we drill down to
 Per - haps we will sur-vive a hot-ter

Warm - er! Warm - er! Warm er! Warm - er~

11 G C

-to the at-mos-phere,
world's cli-mate to change,
bring up all the oil
world than what we know,

Warm - er! Warm - er~ Warm - er! Warm - er!

and
so
and
but

14 C F G C

since then has gone up and up car - bon di - ox-ide's load.
af - ter years and de-cades warm - er does our plan-et grow.
fill out air with C O 2 with out bat-ting our eyes.
how much hard-ship will we cause when warm-ing we de - ny?

Warm - er@ Warm - er!

17 C F

War-mer! War-mer! Each day the earth grows war-mer. Our

Warm-er! Warm-er! Warm-er! Warm-er! Warm-er! Warm-er!

21 G C F

ac-tions do trans-form her! War-mer! War-mer! More car-bon in the air; it's

Warm-er! Warm-er! Warm-er! Warm-er!

25 G C

hard not to des-pair. War - mer! War - mer!

Warm - er! Warm - er! Warm - er! Warm - er!
